A NIGHT WATCHMAN ASSAULTED AND BEATEN. — Night Watchman Edwards, whose beat is on Market street between 11th and 14th, tells a fearful and won-ulerful story of an adventure he had with several colored men on Tuesday night, illustrating the great perils and dangers with which heroic night watchmen are hourly encompassed. According to his story, he was walking up Market street about midnight, when he observed four or five American Africans standing together on the corner of 11th street, enabout midnight, when he observed four of five American Africans standing to gether on the corner of 11th street, engaged in an animated and spirited conversation. The guardian of the night bade them move on, and cautioned them to keep quiet, when the colored boys started up the street, Edwards walking behind them for some little distance, and then turning to relitted distance, and then turning to relit the distance, and then turning to real ball from a Krupp gun, or the boiler of a sleamboat, he is not prepared to offer evidence. Suffice it to say, in his own language, that he was 'sknocked out of his head, and dida't know anything for awhile," something very remarkable indeed. WHEELING AND LAKE ERIE.—The Wheeling & Lake Erie railroad is now being pushed forward. The work on the whole line from Martin's Ferry to the lake is let to Darragh & McKeek. Work has been begun under sub-contracts between Milan and Norwalk, and for some distance east of Norwalk. A sub-contract has also been taken by a Philadelphia mark for twenty-two miles west from tract has also been taken by a Philadelphia party for twenty-two miles west from
Martin's Ferry, embracing all the tunnels and most of the heavy grading.
This party has commenced work on what
is known as the Maxwell and Copeland
tunnel, west of Hopedale, and will put a
force on the tunnels and rock cuttings
asstward to the Ohio river as soon as the
ground can be made ready by the engineers.—Pittsburgh Leader.

TORCHES AND TRANSPARENCIES.—The following committees have been appointed to make arrangements for the Democratic demonstration on Saturday night: Committee on Torches—Alfred Caldwell, Robert Phillips, George Arkle, Thomas Colvin, John L. Rice, Robert Simpson, J. A. Miller, Wm. Taylor, L. W. Stevens, Colvin, John L. Rice, Robert Simpson, J. A. Miller, Wm. Taylor, L. W. Stevens, J. W. Sweeney, N. Reister, J. B. Hughes, James Humes, Wm. Handlan, B. A. Gal-ligan and Frank McNell, Committee on Transparencies—James M. Ewing, Ralph Arkle, J. R. Hughes, Geo. Hannan, Capt. H. Conant, Alfred Caldwell and E. G. Cracraft.

TRACK LAYING.—It does seem as though the Wheeling and Elm Grove street railway company intends to keep their promise, and have ears running on their road in fourteen days. The work of grading was commenced only Monday, and yesterday the track-layers were at work. Thus the track is laid as fast as the street is roraded, and at this rate we may reasonagraded, and at this rate we may reas bly expect the four miles to be completed within the time mentioned. The people living along the line feel quite jubint over the prospect of the early comucted enterprise. \\A/9

Transfers of Real Estate.—The following transfers of real estate were admitted to record in the office of the Clerk of the County Court yesterday: Deed made Sept. 0, 1876, by Wm. L. BYOUNS—The stock market was active and buoyant, with great excitement at different periods of the day. The advance in the leading shares was 1 to 13% per cent, with the greatest rise in coal stocks. The immediate cause of the advance in the general list, especially in the trunk line shares, was the prospect of war in Europe, which would bring with it a very active demand for breadstands, hog and beef products, and contribute largely to the truffic of the roads, which is already very heavy in consequence of the active movement of grain from the West to the seaboard. Again to-day it was asserted that the railroady are was in progress of settlement, and would soon be adjusted, which also had its influence. The sharp rise in coal stocks was brought about by the rumor that another combination was about to be formed, which frightened the bears, and caused a general rith to cover, short contracts. The greatest sevance, was in Delawara & Hadson Camble, which soo from 69 1d 35%, and greated to 775. Delaware, Lacks wanna & Western followed, rising from 73% to 80%, and finally reacting to 77% 78.
